

The U.S. Army Maxi-Mini and Database (MMAD) Program Listed Below

The MMAD Program is supported by two fully competed Indefinite Delivery Indefinite Quantity (IDIQ) contracts with IBM Global Services and GTSI Corp. The program is designed to fulfill high and medium level IT product and service requirements of DoD and other federal users by providing items to establish, modernize, upgrade, refresh and consolidate system environments. Products and manufacturers include:

	IBM Global Services	GTSI
Servers (64-bit & Itanium)	IBM, HP, Sun	Compaq, HP
Workstations	HP, Sun	Compaq, HP
Storage Systems	IBM, Sun, EMC, McData, System Upgrade, Network Appliances	HP, Compaq, EMC, RMSI, Dot Hill, Network Appliances
Networking	Cisco, WiMAX Secure	Cisco, 3COM, HP, Enterasys, Foundry, Segovia

Ancillaries include network hardware items, upgrades, peripherals and software. Services include consultants, managers, analysts, engineers, programmers, administrators and trainers.

MMAD is designed to ensure the latest products and services are available in a flexible manner to meet the various requirements identified by DoD and other agencies. This flexibility includes special solution CLINs, technology insertion provisions, ODC (Other Direct Cost) provisions for ordering related non-contract items, and no dollar/ratio limitation for ordering services and hardware.

Latest product additions include WiMAX Secure Wireless Networking and DolphinSearch Datamining Software.

Awarded to:

GTSI Corp. (DAAB07-00-D-H251); (800) 999-GTSI

IBM Global Services-Federal (DAAB07-00-D-H252); CONUS: (866) IBM-MMAD (1-866-426-6623) OCONUS: (703) 724-3660 (Collect)

Ordering: Decentralized. Any federal contracting officer may issue delivery orders directly to the contractor.

Ordering Expires:

GTSI: 25 May 06 (includes three option periods)

IBM: 19 Feb 06 (includes three option periods)

Authorized Users: DoD and other federal agencies including FMS

Warranty: 5 years or OEM options

Delivery: 35 days from date of order (50 days during surge period, Aug-Sep)
No separate acquisition, contracting and technical fees.

CHIPS Article Submission Guidelines

CHIPS welcomes articles from our readers. Submit articles via e-mail as Microsoft Word or .txt file attachments to chips@navy.mil or by mail to Editor, CHIPS, SSC Charleston, 9456 Fourth Ave, Norfolk, VA 23511-2130. If submitting your article by mail, please send the article on disc with a printed copy. To discuss your article with a CHIPS editor, call (757) 444-8704 or DSN 564-8704.

Relate the subject matter of your article to information technology (IT) and how IT is helping to accomplish your command mission, improve services, perform a task or automate or enhance a process. Provide lessons learned from your experience. Our motto states: *"CHIPS: Dedicated to Sharing Information, Technology, Experience."* The theme of your article should meet the intent of our motto.

An article is more interesting when you can convey a personal experience; it is also easier to read. When writing use active rather than passive voice. Avoid technical terms that only a few readers would understand. Write out the full name or title before using an acronym the first time; thereafter, use only the acronym. But avoid using a myriad of acronyms throughout your article since they can be confusing to the reader.

Articles may contain illustrations. Photos and illustrations are acceptable in .jpeg, .gif, .tif or .eps formats. Do not embed photos or images in your MS Word document, please send them as separate file attachments. Make sure photos and illustrations add value to your article and are mentioned in the text. Please do not use Web-based or MS PowerPoint graphics because they do not have a high enough resolution to reproduce clear, quality illustrations in publication. Please save graphic files with a resolution of 300 dpi.

Submit your article to your public affairs officer and chain of command for release authority before you submit your article to CHIPS.

While we do not require a standard length for articles, we prefer articles one to two pages in length. Typically, one magazine page equals two and a half pages of typed text using a standard 12-point font or approximately 700-1,000 words. (Suggest applying the word count feature in Microsoft Word to check your article length.)

We reserve the right to edit articles, a necessary step in the production process. Our goal is to enhance your style, not change it. We use the Associated Press Stylebook and guidance from the Chief of Navy Information for editorial management.

The following information is provided to help you understand our production process. We have subject matter experts on staff, who review each article for technical accuracy. We may make changes to your article to conform to magazine production guidelines and the CHIPS style manual and format. If an article requires extensive changes equating to a major rewrite, we will contact you.

CHIPS is published quarterly. Our deadline dates are: Feb. 1, April 1, Aug. 1 and Oct. 1.

Thank you for your interest in CHIPS magazine.
